

Muskegon Area Fire Chiefs present

# Big Box Store Firefighting Strategies & Tactics

October 25 & 26, 2019

Led by On Scene Training Associates, LLC., this course covers strategies and tactics of Big Box Stores. Topics include but are not limited to Engine Company operations regarding fire attack and extinguishment, line selection, line placement, crew responsibilities, and utilizing fire suppression systems. We also include Truck Company operations such as forcible entry in multiple types of doors and windows, ventilation, and large area search techniques.

The interactive lecture portion of this course includes situational awareness for the Incident Commander, Company Officer, and line firefighters. Other topics include building construction, suppression systems, safety and survival techniques, and in-depth coverage of strategy and tactics for Big Box Store fires.
